Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will continue to be Low across much of the United Kingdom during Easter Friday with air being sourced from the north. The exception to this may be the Shetland and Orkney Isles as well as coastal parts of East Anglia which may experience Moderate levels of air pollution.

Tomorrow: Low levels of air pollution across the UK. Moderate levels may affect far northern coastal areas of Scotland and also the coastal strip of Southeast England from The Wash southwards.

Outlook: Low levels of air pollution continuing, with continuing risk of Moderate levels for some coastal areas of the far North of Scotland.
